### **How does it work?**

Specialized formula blends with the paint to wipe out unpleasant odors produced by most paints, thinners, strippers, and epoxies without affecting the color or drying time.

### **What is it designed to do?**

Formulated for interior/exterior coating applications in hospitals, homes, restaurants, hotels, and a variety of other areas where the smell of paint may be offensive.

### **Directions:**

Add 1—2 oz. of Odor-X per gallon, then shake or stir.
