- Foam-X
- Odor-X
- Process Water Treatment
 - Chemistry
 - Systems
 - Service

Product description

Odor-X is a specialized formula that mixes with fouled wastewater to reduce unpleasant odors produced by stored corrugator runoff, flexo wash-up and boiler blow-down water.

Product features

- Pleasant odor
- Concentrated: typical dosage: 2 ounces to 8 ounces per 1,000 gallons of wastewater
- Available in 1-gallon jugs and 55-gallon drums
- Does not affect adhesive performance
- Useful in process water reuse applications
- Can be added to gutters or drains around the corrugator, flexos, diecutters, and flexo wash stations

Stock checks and reminders

We will monitor your product usage and call to remind you to do an inventory check so you always have enough product on hand.
